Habtamua Sarato

Passport: EQ2490402 | **Date of birth:** 27/11/2001 | **Place of birth:** Arbaminch, Ethiopia | **Nationality:** Ethiopian | **Phone number:** (+251) 925723980 (Mobile) | **Email address:** habtamuashambel@gmail.com | **Website:** https://github.com/habtashagithub | **LinkedIn:** www.linkedin.com/in/habtamua-sarato-840003219 |

Whatsapp Messenger: Text messages/Voice and video calls |

Address: Arbaminch, NONE, Arbaminch, Ethiopia (Home)

ABOUT ME

Self-taught React Frontend Developer with a background in Civil Engineering. Skilled in building responsive web applications using React.js, JavaScript, HTML, and CSS. Strong analytical and problem-solving abilities with a structured, detail-oriented approach to development. Passionate about creating clean, scalable, and user-focused digital solutions.

EDUCATION AND TRAINING

15/01/2026 – 18/02/2026 United States

CERTIFICATE OF COMPLETION – AMERICAN ENGLISH E-TEACHER PROGRAM (AE E-TEACHER) U.S. Department of State – American English E-Teacher Program

- Occupational techniques (development of English language skills in reading, writing, listening, and speaking)
- Language science and communication principles (grammar structures, vocabulary development, pronunciation, and discourse strategies)
- Occupational technology (use of digital learning platforms, online collaboration tools, and virtual classroom environments)
- Knowledge of professional and social communication context (cross-cultural communication, academic writing standards, workplace communication practices, and global English usage)

Level in EQF EQF level 4

30/01/2026 – 16/02/2026

CERTIFICATE OF COMPLETION (WITH DISTINCTION) – MASTERING PRODUCTIVITY, COLLABORATION & PROBLEM SOLVING FOR HIGH-PERFORMERS Capacity Development

- Occupational techniques (productivity optimization methods, structured problem-solving frameworks, collaborative teamwork strategies)
- Behavioral and cognitive skills development (critical thinking, decision-making, communication skills)
- Occupational technology (digital collaboration tools, workflow management systems, and performance tracking methods)
- Professional effectiveness (time management, goal setting, and accountability systems)
- Knowledge of organizational and business context (team dynamics, leadership principles, workplace ethics, and performance standards)

Level in EQF EQF level 4

08/10/2025 – 02/02/2026

SQL FOR DATA ANALYSIS – NON-CREDENTIAL COURSE Udacity

- Execution of core SQL commands (SELECT, WHERE, GROUP BY, HAVING, ORDER BY)
- Data aggregation, filtering, and advanced JOIN operations
- Subqueries, window functions, and partitions
- Data cleaning and transformation techniques

- Query optimization and performance improvement
- Analytical thinking for data-driven decision making

Level in EQF EQF level 4

01/01/2026 – 24/01/2026

CERTIFICATE OF COMPLETION (WITH DISTINCTION) – INTRODUCTION TO WEB DEVELOPMENT Capacity Development

- Occupational techniques (design and development of basic websites using HTML, CSS, and JavaScript)
- Web structure and styling principles (semantic HTML, responsive design, layout systems, and user interface fundamentals)
- Programming fundamentals (variables, functions, DOM manipulation, and event handling)
- Occupational technology (browser developer tools, debugging methods, and basic website deployment concepts)
- Knowledge of digital and business environment (introduction to user experience, accessibility standards, and professional web development practices)

Level in EQF EQF level 4

01/08/2023 – 22/02/2024 United States

CERTIFICATION – FRONT END DEVELOPMENT LIBRARIES freeCodeCamp

- React fundamentals (components, JSX, props, state)
- Redux usage and configuration for state management
- Bootstrap and jQuery integration in UI development
- Frontend libraries workflow and project structuring
- Dynamic user interface construction with React and Redux
- Debugging and testing React-based applications

Level in EQF EQF level 4

30/08/2023 – 10/10/2023 United States

CERTIFICATION – JAVASCRIPT ALGORITHMS AND DATA STRUCTURES freeCodeCamp

- JavaScript syntax and fundamentals (variables, data types, functions)
- Algorithmic problem solving (loops, recursion, conditionals)
- Data structures (arrays, objects, hash tables)
- Functional programming in JavaScript
- Debugging and logic implementation techniques
- Practical algorithm design and optimization

Level in EQF EQF level 4

04/01/2023 – 25/08/2026 United States

CERTIFICATION – RESPONSIVE WEB DESIGN freeCodeCamp

- Introduction to HTML5 and semantic markup
- CSS fundamentals (selectors, box model, positioning, layout)
- Responsive web design principles (flexbox, media queries)
- Accessibility and best practices for multi-device interfaces
- Web project structuring and portfolio building
- Browser developer tool usage and debugging techniques

Level in EQF EQF level 4

01/09/2016 – 16/09/2021 Adama, Ethiopia

BACHELOR OF SCIENCE IN CIVIL ENGINEERING Adama Science and Technology University

- Structural analysis and design principles
- Construction materials and engineering mechanics
- Geotechnical engineering and soil mechanics
- Transportation and highway engineering

- Project planning, cost estimation, and site management
- Engineering mathematics and technical problem solving

Level in EQF EQF level 6

26/10/2019 – 29/12/2019 Adama, Ethiopia

CERTIFICATE OF COMPLETION – EAGLE POINT SOFTWARE TRAINING Ethiopian Civil Engineering Students Association Conducted At (ASTU)

- Introduction to Eagle Point Software interface and tools
- Civil engineering drafting and design workflows
- Technical drawing standards and digital modeling basics
- Engineering project documentation and visualization
- Software application in civil engineering project development

Level in EQF EQF level 4

26/10/2019 – 29/12/2019 Adama, Ethiopia

CERTIFICATE OF COMPLETION – ETABS SOFTWARE TRAINING Ethiopian Civil Engineering Students Association Conducted At (ASTU)

- Structural modeling and analysis using ETABS
- Load application and structural load combinations
- Concrete and steel structure design fundamentals
- Structural performance evaluation and interpretation of results
- Engineering documentation and report generation

Level in EQF EQF level 4

26/10/2019 – 29/12/2019 Adama, Ethiopia

CERTIFICATE OF COMPLETION – GIS SOFTWARE TRAINING Ethiopian Civil Engineering Students Association Conducted At (ASTU)

- Geographic data collection and spatial data analysis
- Map creation and cartographic visualization techniques
- Spatial database management and data layering
- Georeferencing, coordinate systems, and projections
- Application of GIS tools in civil engineering and infrastructure planning

Level in EQF EQF level 4

26/10/2019 – 29/12/2019 Adama, Ethiopia

CERTIFICATE OF COMPLETION – BASIC AUTOCAD TRAINING Ethiopian Civil Engineering Students Association Conducted At (ASTU)

- Introduction to AutoCAD interface and drafting environment
- 2D technical drawing and dimensioning
- Engineering drawing standards and annotation techniques
- Layer management and object properties
- Basic layout setup and printing/plotting procedures

Level in EQF EQF level 4

WORK EXPERIENCE

CIVIL ENGINEERING ADVISER – WONDESSEN ESHETE GENERAL CONSTRUCTION COMPANY – 20/12/2022 – 24/10/2023 – ARBAMINCH, ETHIOPIA

- Designed, planned, and supervised infrastructure and building construction projects
- Prepared and reviewed technical drawings, engineering designs, and project specifications
- Applied engineering principles to optimize material usage and cost efficiency
- Performed structural analysis and ensured compliance with safety and regulatory standards
- Managed project timelines, budgets, and resource allocation to meet deadlines
- Coordinated with contractors, architects, and multidisciplinary engineering teams
- Conducted site inspections to monitor progress and quality control
- Used technical drawing and engineering software (AutoCAD, ETABS, GIS) for design and analysis

- Identified and resolved on-site technical challenges and construction issues
- Prepared technical reports, documentation, and progress updates for stakeholders

WEB DEVELOPER – SELF-EMPLOYED / FREELANCE – 06/02/2024 – 04/12/2024

- Developed and maintained single-page applications (SPAs) using React.js and modern JavaScript (ES6+)
- Designed reusable and scalable UI components following modular architecture principles
- Implemented state management solutions using React Hooks and Context API
- Consumed and integrated RESTful APIs for dynamic data-driven interfaces
- Optimized application performance using memoization, lazy loading, and code splitting
- Applied responsive design techniques to ensure cross-device compatibility
- Conducted debugging, testing, and performance monitoring using browser developer tools
- Followed software design patterns and best practices for clean and maintainable code
- Collaborated with clients to gather requirements and deliver functional prototypes
- Deployed applications to hosting platforms and managed basic domain configurations

WEB DEVELOPER – SELF-EMPLOYED / FREELANCE – 01/02/2025 – 01/09/2025

- Implemented front-end website designs using HTML5, CSS3, JavaScript, and React.js
- Developed responsive and user-friendly web interfaces aligned with client business goals
- Analyzed software specifications and translated design requirements into functional web applications
- Built software prototypes and interactive UI components
- Integrated REST APIs and handled dynamic data rendering
- Debugged and resolved software issues using browser developer tools and ICT debugging tools
- Applied software design patterns and clean code principles to ensure maintainable applications
- Used version control tools (Git, GitHub) for software configuration management
- Managed domain and basic hosting configurations for deployed websites
- Collaborated with clients using web-based collaborative platforms
- Improved website performance, accessibility, and user experience

WEB DEVELOPER – FLEXISAF INTERNSHIP PROGRAM – 12/01/2026 – Current – NIGERIA

- Developed and maintained responsive web interfaces using React.js and modern JavaScript (ES6+)
- Built reusable and modular UI components following best practices
- Integrated RESTful APIs and handled asynchronous data fetching
- Collaborated with backend developers and designers to implement application features
- Applied state management techniques using React Hooks and Context API
- Optimized frontend performance and improved user experience
- Debugged and resolved application issues using browser developer tools
- Participated in code reviews and followed version control workflows using Git
- Contributed to feature enhancements and UI improvements in educational technology platforms

SKILLS

UI/UX & Styling: • Responsive Web Design, Flexbox, CSS Grid, Styled Components, Dark/Light Mode | Frameworks & Libraries: React.js,Redux Toolkit, Tailwind CSS, Bootstrap, Material U | Languages & Markup: HTML5, CSS3, JavaScript (ES6+), TypeScrip | State Management: React Hooks, Context API, ReduX | API & Data Handling: RESTful APIs, GraphQL, Axios, Fetch API | Build Tools & Version Control: Vite, Webpack, NPM/Yarn, Git/GitHub | Testing: React Testing Library | Deployment & Hosting: Vercel, Netlify, GitHub Pages, Render | Best Practices: SEO Basics, Mobile-First Design

LANGUAGE SKILLS

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
